Lot and four room dwelling, with barn and fences, opposite public school building, \$500, part time.

For further particulars, see ADAMS LOAN & REALTY CO., Hayti.

Do You Think More of Your Finances than You do of Your Family?

You insure your house and your barn, why not insure your life? You realize what a misfortune it would be if your property were totally destroyed and you had to suffer the entire financial loss. It would be a loss you could ill afford, and perhaps it would be impossible for you to continue in your present mode of living if you were deprived of this valuable possession.

Why then do you not realize what a misfortune it would be to your family should THEIR valuable property—YOURSELF, their breadwinner—be destroyed? Should death claim you—and it WILL, sooner or later, maybe sooner—your loss would be one your family could ill afford to suffer—perhaps your children would fail to get an education, perhaps your wife would go to the workhouse, perhaps your property would be sacrificed to pay a debt—YOU are your family's most valuable possession, and YOU haven't a guarantee that you are going to live a day.

Of course YOU don't expect to die for a long, long time. Most healthy people count on living indefinitely. Still, "you can never tell." If, and don't you forget the "if," you SHOULD die, then your home and family would be threatened, because their money-earner wouldn't be there to protect them.

Life is uncertain, but life insurance makes uncertainties CERTAIN. Old line life insurance is not only good if you die, but it is good if you live. Ever think of it that way? It's a fact. You can not take out fire insurance so you will receive any of your money back unless your property is destroyed; but you can take out a life insurance policy which will entitle you to the return not only of a portion of the money you put in, but all of it back. WHETHER YOU DIE OR NOT. It is better than a saving bank, because your money is there for you and you get your life insurance extra, free.

This is the kind of insurance YOU ought to have and the kind I have for you.

If you will drop me a postal card I will gladly tell you all about it. Do it now. Don't wait until tomorrow. YOU may be dead then, and dead people are worthless to themselves, their families and everybody. Today, now, is only yours.

C. S. Yousk, Caruthersville, Mo.

YOU MUST PAY.

This is to inform one and all that I am pushing to collect all bills, and those who owe me must pay, or discontinue with my services. I have worked for you and visited you day and night, and now I must insist on being paid for my labor. Dr. F. A. Mayes.
